ABOUT ME

Frontend developer with four years of experience building banking applications and reusable web components for BBVA with Vue, React and Lit. Background in competitive sport as a strength and conditioning and basketball coach, which shaped how I work in teams: leadership, clear communication and empathy. I use Claude and other AI tools daily to deliver faster: automating repetitive work, prototyping ideas in hours instead of days and keeping quality high through tests and review, so teams spend their time on what matters. Looking for a stable long-term position where I can keep growing as an engineer.

WORK EXPERIENCE

Frontend Web Developer · **10/2022 - Present**
Corus Consulting · Madrid, Spain

- Designed and built reusable web components in Lit, used across multiple BBVA projects.
- Developed features in Vue/Quasar for a BBVA banking process management application.
- Contributed to a BBVA React application using Redux.
- Designed and built a web application from scratch in Vue and Quasar with a team, for an entrepreneur's product.
- Implemented automated test suites with Playwright and Jest, improving the quality and reliability of releases.

Strength & Conditioning and Basketball Coach · **10/2017 - 10/2022**
Basketball clubs · Madrid, Spain

- Alcobendas Basketball Club (2022): physical trainer for the EBA team and preferential female cadet team; scouted EBA opponents.
- Tres Cantos Basketball Club (2020 - 2022): physical trainer for youth male and female teams and the first regional male team; assistant coach, preferential male cadet team.
- Movistar Estudiantes (2019 - 2020): EBA team delegate and scout; head coach, federated male cadet team.
- Coached teams across age groups and levels, from amateur to elite.

EDUCATION AND TRAINING

Degree in Physical Activity and Sport Sciences · **2013 - 2020**
Universidad Europea de Madrid · Specialisation: high-performance training

Physiotherapy (not completed) · **2013 - 2018**
Universidad Europea de Madrid · studied as part of a double degree

COURSES AND CERTIFICATES

Claude Code 101 · **10/2026**
Claude Academy (Anthropic)

HTML, CSS and JavaScript for Web Developers · 2022
Johns Hopkins University · Coursera

Python for Everybody · 2022
University of Michigan · Coursera

Practical JavaScript for Web Development · 2022
EscuelaIT

Basketball Coach Level 2 · 2018
Madrid Basketball Federation

Spanish	Mother tongue
English	C1 — listening, reading, speaking and writing

DIGITAL SKILLS

Front-end	JavaScript, Vue, Quasar (advanced) · React, Redux, Lit (intermediate) · TypeScript, Tailwind (basic)
Testing	Playwright, Jest
AI-assisted dev	Claude, Claude Code and other AI assistants · agentic programming · building custom agent skills and automated workflows
Other	Python (intermediate), Git, JIRA
Methodologies	Agile, Scrum

PROJECTS

Personal projects · github.com/Ziruxltd

- Custom AI agent skills that automate multi-step research: gathering live data from the web, filtering it against strict personal criteria and producing ranked, ready-to-use HTML reports.
- Weather web app showing weather and UV data for outdoor workers, following Chilean outdoor-work regulations.
- Static website for my wedding, built in Vue.
- Simulation of Conway's Game of Life.
- Word clock that tells the time in words.
